## X-Ray Processor Cleaning Products

Clean Image Daily Clean Up Sheets, 50 Cleanings  
 Step 1 of a 3-Part Cleaning Process  
 Southland Distribution & Sales

Clean Image Daily Clean Up Sheets is step 1 of a 3-part cleaning process for your x-ray processor. Used daily, it removes residue from rollers and webs that causes film to be grainy. Moisture-activated coating removes buildup and reduces processor downtime for cleaning. Bright white sheet shows the dirt. Clean Image produces immediate, clean, sharp film every time.
